Hospital Labels

labels for patient samples, case notes & laboratory identification

We are able to supply our customers with a complete range of superior quality hospital labels - in paper, polyester, heat-sensitive and freezer-proof polypropylene materials - supplied on rolls and A4 sheets. Designed for use with hospital admissions, patient case-notes, blood/ tissue samples and laboratory administration.

Available as standard in a selection of sizes and quantities, used for general short and long term labelling and produced using advanced material technologies that means they can be adhered to any substance.

If we do not have the exact size or material shown, please contact us for custom manufacturing to your specific material requirements and sizes.

INFA-LABEL

4-6 WEEKS LIFE CYCLE *

for use with old- style handwritten childs hospital wristbands

An innovative patient identification solution which will allow old-style handwritten childrens hospital wristbands to be used in conjunction with the added security of printed text and barcodes. A unique self-adhesive label will adhere directly to the surface of an existing handwritten or printed childs hospital wristband. Built-in security slits will stop the label from being removed in one piece.

- Added security for old-style handwritten childrens hospital wristbands
- Print with barcode, text, photo and images
- Adheres to surface of silicone wristbands
- Innovative tamper-evident fastening
- High quality print
- Print resistant to water, soaps, alcohol & chemicals
- Simple to use
- Available in white as standard
